

# Nokia 6560 Display Replacement

Written By: Nathan Whitacre

## INTRODUCTION

This guide gives instructions on replacing the Nokia 6560 display.

---

### TOOLS:

- [iFixit Opening Tools](#) (1)
  - [T6 Torx Screwdriver](#) (1)
-

## Step 1 — Battery

- Remove the back cover of your cell phone by pushing the small slider with your fingernail towards the top of the phone.
- Lift off your cell phone's back cover.

## Step 2

- Use your index finger to first push down and then lift up the battery as shown.
- Remove the battery from your cell phone.

## Step 3 — Keypad

- Open the front cover of your cell phone with the plastic opening tool or finger nail.
- Lift the cover upwards, starting from the bottom below the keypad.

## Step 4

- Lift the keypad off of the keyboard as it is not attached to the phone anymore.

⚠ If you want to clean your keyboard do not use chemical cleaners or too much water, instead, use a damp cloth.

ℹ It may be tricky to get the keypad in the right position while closing the front cover for the reassembly. Ensure they are aligned properly before closing the front cover!

## Step 5 — Keyboard

- Unscrew the six T6 torx screws which attach the frame to the cell phone case.

⚠ Be careful not to scratch your display with the screw driver.

## Step 6

- Lift the frame off of your cell phone.

## Step 7

- Lift the keyboard out of the plastic frame.

## Step 8 — Display

- Use the plastic opening tool to unmount the thin metal frame at the tab connections. You must do this on both sides.
- Lift the thin metal frame off of the plastic frame.

⚠ Pay attention while lifting the frame off because it can easily be bent.

## Step 9

- Pull the sides of the plastic frame apart in order to loosen the display.
- Take the display out of the plastic frame.

To reassemble your device, follow these instructions in reverse order.
